January 2021

Welcome to POSTWINK!

POSTWINK RECYCLING SOLUTIONS has been helping thousands of clients and customers set up effective recycling initiatives since 2008. While most of our quality recycling containers and bins (most of which are locally made and unique to us) inspire a sense of sophistication and sustainability, some other products may be less “grand” but are truly practical and meet the specific needs of specific organisations, like luxury lodges.

At Postwink, we believe that when one has the right recycling bin (which can be used to keep food waste separately for composting too), you do not just eliminate cross-contamination and improve your recycling rate, you also teach your staff and other stakeholders about Sustainability-thinking. Hence, our products and services not only make your recycling easy and improve your recycling rates – they actually educate so everyone can recycle better and contribute towards a circular economy!

With 2020 behind us but the pandemic still far from over, we feel that hygiene has become at the forefront of facilities management. Promoting good waste practices goes hand-in-hand with educating about good hygiene. Let's take the opportunity to improve the management of our buildings and include waste separation in our standard mode of operation. It is the perfect opportunity to improve and to be more sustainable.

In this catalogue, we focus on the bestsellers that most buildings use to improve their waste practices (including corporate, the hospitality industry, shopping centres and schools/universities). Kindly request a PPE Catalogue, should you be looking for our range of products that ensures strict hygiene (such as sanitiser dispensers, desk screens and the like). Also, Should you wish to consider improving your waste practices at home, we encourage you to visit our Online Store www.ShopPostwink.co.za.

From a Small Business to you, we want to really, REALLY thank you for your support.

Yours in Recycling,

Berenice, and the rest of the Postwink team,

 **Postwink -what we do:** Postwink contributes to a Sustainable Now. We focus on ensuring effective waste separation at source, with our extensive knowledge and experience in the industry, and our wide variety of products. Unlike purchasing your recycling bin from a store, we can guide, customise, brand and train; resulting in less of your recyclable materials ending up at landfill. And if you know what you want, we also provide recycling solutions directly to consumers via our Online store ShopPostwink.co.za.

Customise your Recycling Initiative with your Brand

We believe that by having your own corporate logos and customised waste list on your recycle bin, your recycling communication to your staff and your clients is more effective – and effective communication results in effective waste separation!

All our products can be branded with your logo, with minimal effort and cost. Examples of artwork with your logo reflect below, with our range of available waste icons and labels on the following page.

Turn your Bins into PPE-Disposal Bins!

Turn any of our bins into PPE-Disposal bins with our range of PPE-targeted labelling. This will help ensure no PPE items find themselves in the recycling.

***** Ask us for our separate PPE Catalogue, which includes multiple PPE products in addition to bins.**

 The EcoCylinders™

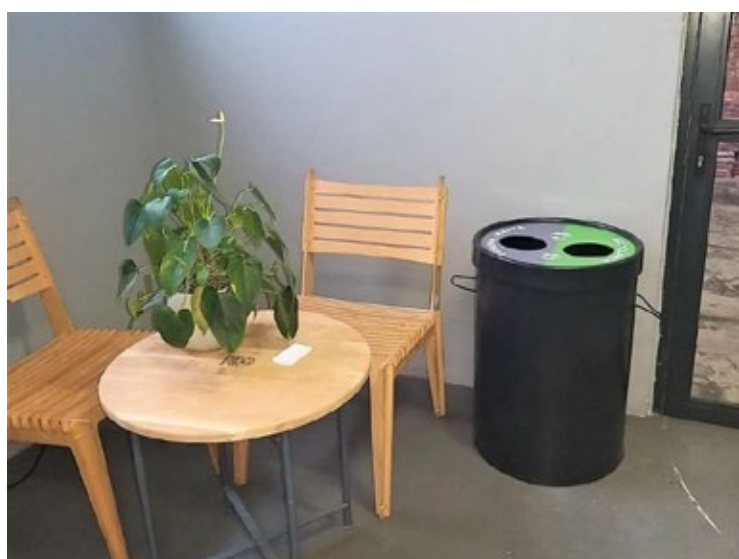

Our Ecocylinders™ are one of our bestsellers and come in a variety of usages, depending on your waste type. **These can now be rented on a 12-month contract. T&Cs apply for all rentals. Contact us for more information.**

Indoor Office: EcoCylinders™	Product Code
1-waste EcoCylinder bin	PR102
2-waste EcoCylinder bin *	PR126

The Sesame Range: Sensor-Touch Bins

Manufactured by the internationally acclaimed brand, Nine Stars, Postwink stocks a wide range of Sensor-Technology bins, which open automatically by a wave of a hand (or the tap of a foot, for the sensor-tap bin). We have baptised this range our SESAME™ range of bins.

These units lock in odours, while making separation of waste cleaner and easier. The brushed stainless steel (of quality grade #430) is finger-print resistant and is of the highest quality.

We welcome bulk orders, however kindly check with us on our stock levels, as bulk orders may attract lead times of 8 to 10 weeks, should the stock not be available at the time of your order. These units are guaranteed for any manufacturing fault for 12 months.

*****Ask us for a copy of our separate catalogue for the full range of Sesame bins.**

Modular Unit per unit (without inner)	PR223
Branding boards per unit: 27.5 x 9cm H	AD038
Monster cut outs (per unit)	AD051
Robust Inner (one per unit)	AD060

Branded Modular Units

Domed Top Modular unit with branding Board & with Monster cut-outs

The Polyplank Double Bin

- ✓ Fit 2 x 240L wheelie bins inside
- ✓ Approx 150 x 88 x 132cm
- ✓ Lockable & Very sturdy.
- ✓ Highly durable – recycled plastic (“wood” look)
- ✓ Can be branded with Signage boards

Polyplank Double Unit	Code
PolyPlank Double Unit – no branding	PC264
Add-On branding (two: 1 per door)	AD094

The Bishop Units

Ideal for outdoor usage, these units, sold individually, turn a regular 240L wheelie bin (which fit inside) to a great looking recycling bin. With large branding space on the front and a throw-in hole insert which matches the colour of your waste type, the Bishop will make waste separation easy to understand and communicate.

- ✓ Very Sturdy, Durable, rotomoulded
- ✓ Each fit 1 x 240L wheelie bins, so 240L capacity
- ✓ Front door opens and can be locked (padlock not included)
- ✓ Throw-in Hole insert changes colour to match waste name being collected.
- ✓ Customized front branding possible
- ✓ Outer dimensions: 66 x 95 x 138cm Height (per unit)
- ✓ Made in South Africa

Outdoor Product	Code
Bishop Outdoor unit	PR310
Add-on 240L wheelie bin	PI202

The Recycling Igloo

The Postwink Igloo neatly collects any kind of bulk recyclable waste. Throw your recyclables into one of the three openings and these are directed into either a 1-ton capacity bulk bag or 3 separate 210 litre drums (available separately). Importantly, these Recycling Igloos™ can be emptied by all recycling collectors, as they only require manual handling to empty, by either opening the top or the front doors.

Specifications

- ✓ Made in South Africa from robust plastic (polyethylene), which is 100% recyclable.
- ✓ Using a bulk bag, the capacity of this bin is 1000 litres.
- ✓ Outer size: 140 x 130 x 150cm High, Oval throw-in hole size is 35 x 20cm
- ✓ Secure locking system: Front doors and top lid lockable using secure cam locks (1 key per igloo)
- ✓ Add-on: 1-ton capacity Bulk bags and/or 210L steel or plastic drums.
- ✓ Price includes cut-out lettering by throw-in holes

2. The Confidential Wheelie bin

- ✓ Wheelie bin with locking system and cut-out paper slot
- ✓ Padlock not included
- ✓ "Paper" or "Confidential Paper" Label included
- ✓ Blue is the recommended Paper colour

Confidential Paper Bins	Code
Confidential 140L wheelie bin	PI251
Confidential 240L wheelie bin	PI265

Battery Collection // CFL Bulbs Bins // Small E-waste

These are ideal for consumer battery collections (e.g. AA/AAA household batteries) and for consumer-friendly CFL bulbs, but not ideal for the long fluorescent tubes. Other small e-waste (electronic waste) can also be collected, such as phones, cables, mouse, etc...

Important: Always collect Lithium batteries and rechargeable Batteries separately from household alkaline batteries. Lithium batteries and rechargeable Batteries should ideally be collected in steel bins – not plastic.

1. The Battery Ecocylinder™

- ✓ 100-litre capacity, 485mm diameter x 660mm height
- ✓ Labelling of the lid is layered for durability and scratch-resistance
- ✓ Bin made of polyethylene (100% recyclable) & is very robust
- ✓ No separate Liner included.
- ✓ Always collect Lithium batteries and rechargeable Batteries separately from household alkaline batteries.

Battery Ecocylinder™	Code
Battery Ecocylinder™	PR102B
Add-on rubber castor wheels (x 4)	AD040
Add-on Corporate logo on the sides	AD070

The Coffee Ecocylinder

In many offices, coffee cups are either reducing recycling bins' capacity or are contaminating the rest of the recyclables with their left-over liquids. In order to improve your recycling rates, use a Coffee recycle bin to separate cups, stirrers or lids and left-over liquids.

- ✓ Outer size: 485mm dia x 660mm H
- ✓ 3 separate holes and inners:
 - ✓ 1 x half-inner for Cups
 - ✓ 1 x Quarter inner for stirrers or lids
 - ✓ 1x Special Quarter inner for left-over liquids
- ✓ All 3 inners are removable.
- ✓ Labelling of the lid is layered for durability & scratch-resistance
- ✓ Bin made of polyethylene (100% recyclable) & is very robust

Coffee Ecocylinder™	Code
Coffee Ecocylinder™	PR183
Add-on rubber castor wheels (x 4)	AD040
Add-on Corporate logo on the sides	AD070

 Donation Bins / Clothing Banks

1. The Clothing Bank MAXI Leather-Touch

- ✓ Custom-made bin from ABS plastic (incl. recycled content)
- ✓ Includes locking system
- ✓ Standard Front printing included
- ✓ Round throw-in hole on lid
- ✓ Has a Bag Holder inside (holds regular sized liners)

Donation Bins	Code
MAXI ClothingBank : 400 x 360 x 800mm H	PC239

Cardboard Bins, 75L or 100L	CB171 /CB189
Red Biohazard Bags – pack of 50 pces	AD101

***** Ask us for our separate PPE Catalogue, which includes multiple PPE products in addition to bins.**

Composting Bins: Bins that keep food waste separate

Composting is the recycling of your food waste into compost, a valuable resource for our soils. Composting your food waste is crucial to reduce your output to landfills – food on landfills are the biggest contributors to Methane being released into the atmosphere from landfills. Furthermore, in the Western Cape, Food waste and other organic waste will be banned entirely from landfills from 2027.

Composting can be done in offices and hotels; there are multiple methods of composting which can be implemented:

1. **Use Bokashi bran** – its microbes eliminate the odours of food waste and quickens the natural composting process. The Food waste induced with Bokashi can then be collected by a composter, or composted on-site in a Composting Vessel (see below).
2. **Use certified compostable bioplastic as liners**, which are also breathable and hence will reduce any odours. Bioplastic liners allow ease of disposal for composting collections.
3. **Using worms** (vermiculture) allows on-site composting – although worms will not accept meat, citrus or dairy, worms are maintenance-free and odour-free. An easy solution for small offices.
4. **Using a Garden Composter** allows on-site composting in a garden area of any size.
5. **Using a Composting vessel** (called an IVC – for In-Vessel Composting). These are for commercial solutions for organisations with food output from 2 ton per month and more. Contact us for more information on these.

1. Composting Ecocylinder™

- ✓ Outer size: 485mm diameter x 660mm height
- ✓ Labelling of the lid is layered for durability and scratch-resistance
- ✓ Bin made of polyethylene (100% recyclable) & is very robust
- ✓ Rope handles and closed lid
- ✓ 4 x rubber castor wheels included.
- ✓ Can be used to collect & store food waste treated with Bokashi; or can be used with a compostable liner to collect food waste.

Composting Bin	Code
Composting Ecocylinder™ (no holes, on wheels with rope handles)	PR165
Add-on Mater-Bi Compostable bags – Pack of 10, Bag Size 90 x 110 – <i>currently out of stock</i>	AD088

2. Earth Bokashi Bucket Bin, 25L and Bokashi Bran

- ✓ Ideal for smaller spaces – lid should be kept closed as much as possible – hence use a small counter bin to collect the waste & throw into this bin for storage.
- ✓ 25L Plastic Bucket Bin, with lid, a strainer and a tap
- ✓ Bin to be used with Earth Bokashi bran

Composting Bin	Code
Bokashi 25Litre Bin (with strainer & tap)	E504
Add-on Earth Bokashi bran bucket – 700g	E501
Add-on Earth Bokashi bran – 2kg	E501
Add-on Earth Bokashi bran – 4kg	E502
Add-on Earth Bokashi bran – 10kg	E507
Add-on Earth Bokashi bran – 25Kg	E503

3. Airtight Bokashi Drums, 100L to 150L

Ideal for commercial buildings who are using bokashi to compost their food waste*. These airtight drums are durable, refurbished plastic drums used to store food waste in between collections. (Ideally, food waste is mixed with Bokashi Bran to speed up the composting process).

- ✓ Ideal to store Food waste in between collections
- ✓ Best used with Bokashi bran, to start the composting process on site. Bokashi will reduce bad smells too.
- ✓ Approx. 100L, 120L or 150 litres – depending on availability.
- ✓ Use a heavyweight dolly to wheel full drums around.
- ✓ Since these are refurbished bins, the final size may differ depending on availability.

Composting Bin	Code
Refurbished Blue Plastic Drum with lid	PR188
Recycling Label for the side	AD001
Rotomoulded, durable heavy-duty Dolly (4 wheels) -470mm inside diameter	AD052

*These drums are also ideal to store used oil for recycling.

4. Aerated Kitchen Caddy, with Compostable Mater-Bi liners, 7L

- ✓ **Ideal when a bag system is preferred for ease of operations.**
- ✓ The aerated bag ensures no odours and ease of disposal.
- ✓ Full bags can then be stored in a wheelie bin or Ecocylinder bin.
- ✓ Small enough to collect food waste on kitchen counters
- ✓ Outer size: approx. 19 x 23 x 21cm high; approx. 7L capacity
- ✓ Green body with clear removable lid, Steel Handle
- ✓ Roll of MaterBi compostable bags has 25 bags.
- ✓ *Imported Product, please check stock levels on order.*

Composting Product	Code
Kitchen Caddy	PI185
Add-on additional Mater-Bi Compostable bags – 7Lt, Roll of 25	AD075

5.Round & Square Food Collection Compost Bins, 15L

- ✓ Ideal to collect food waste on kitchen counters – big enough for commercial kitchen counters.
- ✓ No Bags required, Removable Lid
- ✓ Colour options: Dark Green , Charcoal
- ✓ Design Options: Round with Lid; Square-shaped with Lid.
- ✓ Both design have approx.. 15 litre capacity.
- ✓ All bins come with "Food Scrap" Labelling (white letters)
- ✓ *Imported Product, please check stock levels on order.*

Composting Product	Code
Round Compost bin – 27 x 27cm	PI1012
Square Compost bin – 28 x 20 x 30cm H	PI1011

6. The Worm Oasis – Mini Worm Farm

- ✓ UV Resistant, strong and durable
- ✓ Includes 2 working trays, with an additional drainage tray.
- ✓ Has a built-in tap for the worm liquid (which can be used in plants)
- ✓ Supplied together with a coco block for the worm bedding, a worm blanket, 500 composting worms and an Instruction manual.
- ✓ Ideal for smaller office kitchens and balconies, guest houses and schools
- ✓ Can be kept inside or outside (no smells), but must be out of direct sunlight.

Composting Product	Code
Worm Oasis	PR168
500 worms for Composting (in a bucket)	AD095

7. The Garden Composter

- ✓ UV Resistant, strong and durable
- ✓ Made locally, rotomoulded
- ✓ Capacity: Approx. 200 litres
- ✓ Open bottom – to be used in a garden.
- ✓ Ideal for gardens of any size

Composting Product	Code
Garden Composter	PR256

 Colour-coded Wheelie Bins

- ✓ 240L wheelie bin: 580 x 600 x 1075mm
- ✓ 140L wheelie bin: 587 x 482 x 1009mm
- ✓ 770L wheelie bin: 750x 1300 x 1300mm
- ✓ 1100L bin: 1070 x 1265 x 1380 mm high
- ✓ Composting bin: 550 x 470 x 1020mm

- ✓ 140L and 240L Colours: Green, Blue, Yellow, Red, Orange, Black
- ✓ 770L and 1110L Colours: Green or Black only.
- ✓ Different Labelling options, Pedal option for Hands-free lid opening (red bins only).
- ✓ Cut-out holes (on the front or on top of the lid) and locking systems available for all the wheelie bins.

Wheelie Bins	Code
240 litre wheelie bin- full colour / charcoal	PI202
140 litre wheelie bin- full colour / charcoal	PI204
770 litre wheelie bin- green / charcoal	PI234
1100 litre wheelie bin- green / charcoal	PI235
Labelling, Add-ons to Wheelie bins	Code
Regular Recycling Label, incl. application	AD001
Shaped Front Branding, incl. application	AD045
Customise Wheelie bin Labels' Colours / Wording	AD078
Cut-out throw-in holes or Locking System	AD010 / AD011
Add-On Bags of 50 x Lrg Clear Plastic Liners 1240x1300 40micr	AD042
Add-on Pedal Mechanism to red wheelie bin	AD104

RECYCLING STORAGE / WASTE AREAS

Bulk Bag Steel Frame

- ✓ Strong & durable Galvanised Steel
- ✓ Used to hang the standard 1-ton (100 x 100 x 100cm) hessian bags
- ✓ Comes unassembled for more efficient transport
- ✓ When assembled, dimensions: 130cm W, 130cm L, 150cm H
- ✓ Capacity: Approx. 1000 litres
- ✓ Waste name branding Boards can be added on the front
- ✓ Made in South Africa

Waste Area Product	Code
Steel Frame for Bulk Bags	SS270
1-ton Bulk Bag (approx..100 x 100 x 100cm)	AD012
Branding boards per unit: 27.5 x 9cm H	AD038

Aluminium Can Crusher – Wall Mounted

- ✓ Crushes beverage cans to improve space capacity
- ✓ Crushes one can at a time
- ✓ Wall mounted – comes with screws, excl. Installation.
- ✓ Not suitable for steel, food cans.
- ✓ Made in South Africa

Waste Area Product	Code
Aluminium Can crusher	AD107

Before & After crushing

Stainless Steel Sorting Table

- ✓ Grade #430 Stainless Steel top, 9mm
- ✓ Top and separate folder-over legs.
- ✓ When assembled, dimensions approx. 90 x 75 x 78cm H
- ✓ Comes unassembled for more efficient transport
- ✓ Ideal for waste staff to use to sort recyclables
- ✓ Large waste areas may require more than one table.
- ✓ Made in South Africa

Waste Area Product	Code
Sorting Table: SS Top and set of legs	AD108

Add-Ons & Services for a Successful Initiative

At Postwink, we want you to set up a successful recycling initiative, one that actually works over the long-term. We want to provide you with recycling bins and other resources that will encourage separation at source and help promote a recycling culture in your working environment or/and community. The services that are listed below are key to a successful initiative.

Add-On Products and Services	Code
EDUCATIONAL	
A3 Poster: "Recycling List" or "Composting List" – including company logo	AD081
Additional Postwink Recycling Labels: 400 x 270mm	AD001
Recycling Launch Training session for Staff (Cape Town or Gauteng only)	H053
RECYCLING BAG LINERS	
Clear recycling Bags (100% recycled) -roll of 20, regular size: 750 x 950mm	AD057
Wheelie bin size Bags (clear, 1240x1300 40micr, pack of 50 pces)	AD042
Red-Tinted Biohazard Bags – pack of 50 pces. 750 x 950mm, 40 micr.	AD101
MATER-BI CERTIFIED COMPOSTABLE LINERS – LIGHT BROWN/BEIGE COLOUR	
Mater-Bi Compostable bags – roll of 25, 7Lt	AD075
STAINLESS STEEL CLEANER - for all STEEL bins	
BACTERRORIST® spray-on enzyme cleaning detergent – <i>ideal for all steel units</i>	C400
BACTERRORIST® 5Lt refill bulk bottle	C401

Staff Home Recycling Start-Up Kit

Give the Gift of a HOME START-UP KIT

With many staff members working remotely, you can now encourage them to recycle at home with these affordable Home Recycling Start-up Kits. A kit includes:

- ✓ A Wheelie-bin separator (to keep their recycling separate from the general waste in their municipal bins)
- ✓ A set of 2 labels: Recyclable and Non-Recyclable
- ✓ A Recycling List Fridge Magnet -to teach or remind them how to separate.
- ✓ A roll of 20 x clear recycling bags
- ✓ **Prices based on quantities ordered.**
- ✓ *Price from R195 is based on quantity of 250 units.*

THE STAFF RECYCLING START-UP KIT INCLUDES:

- Recyclable & Non-Recyclable stickers (to stick on one's kitchen bins*)
- Clear recycling bags
- A wheelie bin separator (to keep recyclables separate using your municipal wheelie bins*)
- A fridge magnet detailing how to separate recyclables vs non-recyclable
- Educational pamphlet on the importance of recycling (with client branding)

***SPECIAL OFFERS** on kitchen recycling bins and wheelie bins can be included to allow the more motivated individuals to invest further in their own recycling initiative at home.

****Prices excl. VAT & delivery.** Prices may fluctuate depending on order quantity.

Call Berenice (079 491 7615) or Nadia (081 436 4220) to discuss your options on how to customise the offering for your company.

HOW TO ORDER, MEMBERSHIPS & OUR GIVE-BACK CONTRIBUTION

How do I place an Order?

- ✓ Email info@postwink.co.za the product code/name, quantity and your location.
- ✓ A formal quote will be emailed back to you.
- ✓ To confirm the quote, a 50% pre-payment will be required and a tax Invoice sent.
- ✓ If relevant, your printing proofs (relevant to your required branding) will be emailed to you for approval.
- ✓ On approval, production is in full swing, and one of our team members will revert back to you with a completion date, and will coordinate the delivery with you.

If you have any queries on our products or process, call us or message us using one of the contact methods below.

Our “give-back” contribution

We deliver our products anywhere in South Africa and beyond our borders. However, Postwink is aware that transporting goods has a negative impact on the environment. This is why we support the tree planting programmes implemented by various Non-Profit organisations. In the process, we reduce our carbon footprint as well as improve the lives of many disadvantaged community members. To date, we have contributed over 500 trees and bamboo plants to such programmes.

 SOME OF OUR CORPORATE CLIENTS

Lead times and Terms & Conditions

a. Lead time

Lead times depend on the quantity ordered and the time at which the order is being placed. It will usually vary between 1-4 weeks to the time of dispatch. Lead times start from receiving the required deposit as well as a complete order, including receiving confirmation of colours, waste names and logos (if relevant). If information relating to branding and product colour and/or approval of printing proofs are delayed, this will impact your completion date. Training sessions are subject to our availability and are subject to a minimum lead time of 2 weeks. Kindly note that due to the custom nature of the product, the lead time for the leather-touch units is approximately 4 weeks – even for small orders.

b. General Information, Terms and Conditions, Intellectual Property information

Note: Although our office is based in Cape Town, manufacturing is not necessarily done in Cape Town. We ship nationwide, and beyond our borders – hence ask us for a quote for a formal pricing including delivery to your door.

All prices provided exclude VAT & delivery costs, with most products being dispatched from Cape Town or Johannesburg (depending on the product and your location). Because of the bin sizes, certain delivery costs may be significant; hence please request a formal quotation for a more accurate cost estimate including transport to the required location.

Prices do not include the costs of corporate branding using vinyl or other methods. Please specify your requirements in writing so that we may quote you accordingly. For all corporate logos required printed on vinyl or otherwise, please email all corporate logos / artwork in a vector file or editable pdf file within 4 working days of placing your order, else your lead time will be negatively affected, as your order will be put on hold until receipt of the correct, useable artwork.

Prices may vary based on quantity. Hence, please request a formal quotation based on your actual order quantity in order to see the applicable pricing. Furthermore, kindly check your quotations carefully prior to approval, as we cannot be responsible for incorrect quotations that are approved as orders.

Manufacturing of the order will not commence until the order has been confirmed with a 50% deposit of the total quotation. Balance of payment is required strictly on dispatch. For all orders amounting to R5 000 or less, payment terms are strictly in advance. For the renting of Ecocylinders™ or wheelie bins for events, a refundable deposit will be refunded within 72 hours once the units are returned to us empty, clean and in good order.

We reserve the right to deliver your order in part-shipments if we feel this makes economic and practical sense. Products (including artwork/designs) remain the property of Postwink until the account is settled in full, even if these have been delivered to you.

We make use of professional third parties to deliver your order. Their mandate is to deliver your order without damage and in a professional manner. Should you have any issues with the level of service with our couriers, kindly report this to us. Furthermore, note that a delivery does not mean placement of bins or installation – this must be discussed in advance with our sales team, so we can assess whether we are able to do the placements for you or the installation. Extra charges will be added to your quote accordingly.

Dimensions provided in this brochure may have been rounded and may differ slightly to the actual dimensions on manufacturing. Capacities provided in this brochure may also have been approximated for ease of communication.

Our prices are subject to change without prior notice. This is especially true for stainless steel products, whose prices fluctuate according to international steel prices. Prices for the training sessions will depend on the number of individuals in the training session, the customer location and who will perform the training. Our Prices include a contribution towards one of the tree planting programmes that we support, including those by Food and Trees For Africa or GreenPOP. Ask us about the number of trees purchased as a result of your order.

The INOX™ Stainless steel recycling units, Ecocylinders, igloos, Bishops, PODs, recycling labels and posters shown herein are Postwink's intellectual property. Postwink is the owner of the various literary and artistic works embodied in its Designs, brochures and website, as determined by the Copyright Act, 1978. Any unauthorised reproduction, adaptation or publication of the work is strictly prohibited. The Postwink igloo, Pods, Bishops and Ecocylinder recycling bins have moulds which are jointly owned by Postwink and its manufacturing factory. The Postwink Igloo

design has also been registered with the South African Design Office (Design registration number F2011/00148), as well as the recycling POD (Design registration number A2014/01539). As such, Postwink is entitled to enforce its rights in the Design against any person who makes, imports, uses or disposes of any article which embodies or is similar to the Design. Other products included in this brochure are our supplier's intellectual property and hence similarly cannot be recreated or copied without consent. Postwink is the sole distributor of the Recycling Trolley and EcoLid. Orders are subject to our complete set of Terms and Conditions, a copy of which will be provided on request. Kindly note that we customise our Postwink artwork with Client logos for your convenience, however the Postwink artwork (including our waste icons) strictly remains the property of Postwink at all times, and cannot be sent to Clients for editing, own printing or otherwise.

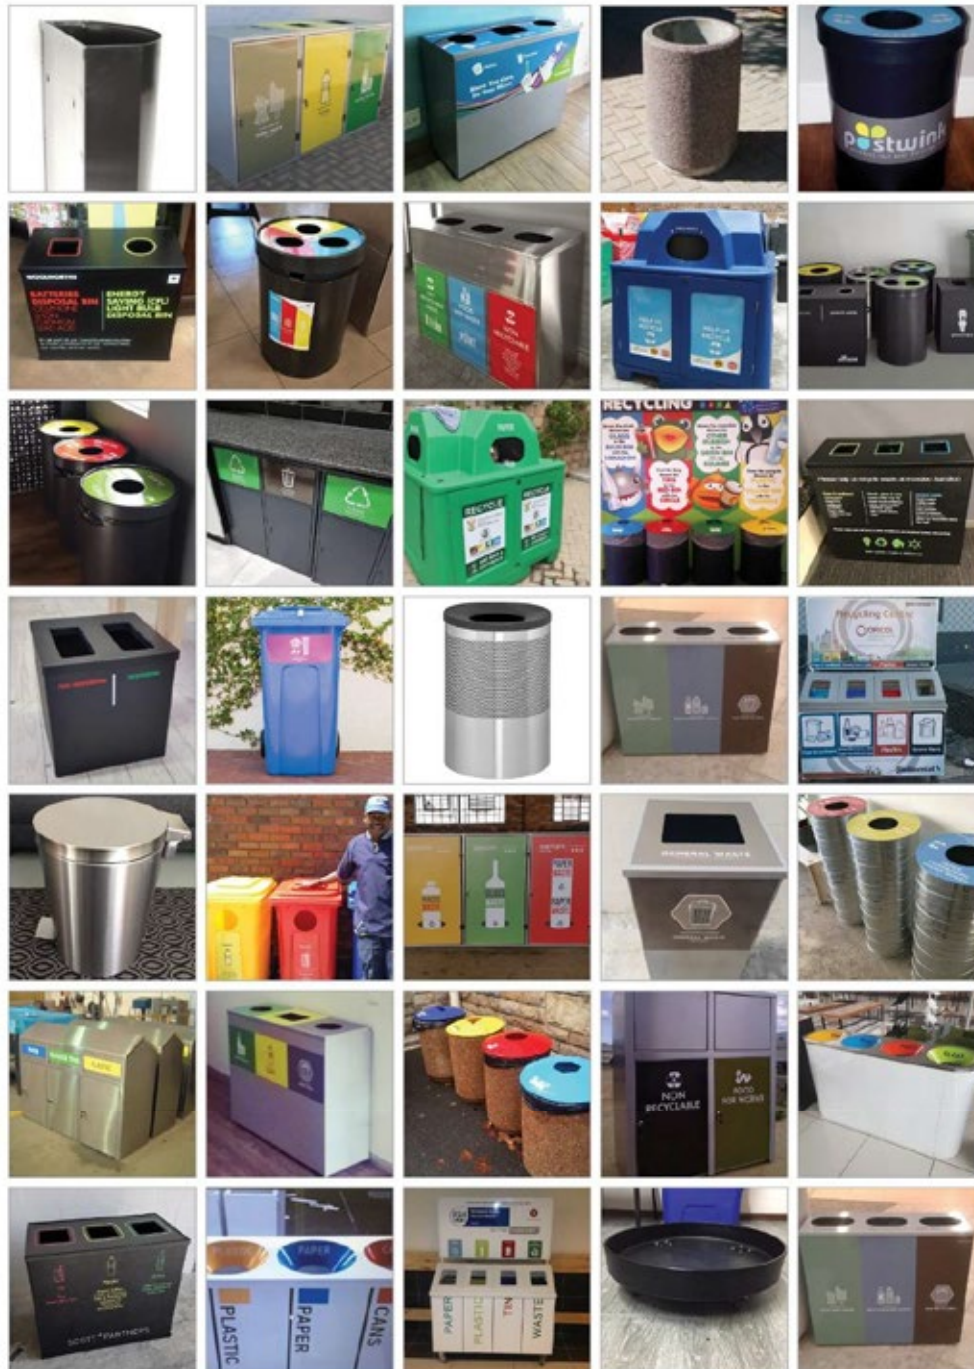

Prices quoted there include basic packaging, ideal for local deliveries and most domestic freight. Adequate packaging required for overseas and long-haul freighting can be done at an added cost, and must be requested prior to confirming your order.

Unless stated otherwise, we have standard recycling colours for the decals/labelling. Custom-decals/labelling will be charged accordingly. Prices quoted are for orders in South Africa. For quotations outside of South African borders, kindly contact info@postwink.co.za and specify your requirement, so an accurate quote based on specific Incoterms is provided. Export quotations can take up to 7 days. E&OE.

INTELLECTUAL PROPERTY AND DISTRIBUTIONS

Our INOX™ stainless steel recycling units, EcoCylinders, Recycling Igloo™s, The Bishop, Recycling POD, wheelie bin labels, recycling icons and posters (as shown in our full marketing material) are Postwink's intellectual property. Postwink is the owner of the various literary and artistic works embodied in its Designs, brochures and website, as determined by the Copyright Act, 1978. Any unauthorised reproduction, adaptation or publication of the work is strictly prohibited. The Postwink igloo, The Bishop, the Recycling Pod and EcoCylinder recycling bins have moulds which are fully owned by Postwink or jointly owned by Postwink and its manufacturing factory. The Postwink Igloo design has also been registered with the South African Design Office (Design registration number F2011/00148). As such, Postwink is entitled to enforce its rights in the Design against any person who makes, imports, uses or disposes of any article which embodies or is similar to the Design. Other products included in this brochure are our supplier's intellectual property and hence similarly cannot be recreated or copied without consent. Postwink is also the sole distributor of the Recycling Trolley, NineStars Sensor bins, Leather-touch MAXI and MEDI, the Recycling Box (Fabric-coated cardboard bins), the EcoLid, and the owner of the BACTERRORIST enzyme cleaner. Postwink is furthermore an approved distributor of Mater-Bi Compostable bags from Italy, and EarthProbiotic composting products and Bokashi.

Images and copy may not be lifted from the Postwink brochure, website or otherwise, except when permission has been sought and granted in writing.

10 REASONS TO RECYCLE? WHEN WE RECYCLE, WE...

SAVE OUR NATURAL RESOURCES like forests and metals.

SAVE ENERGY as it takes less energy to make goods from existing goods.

COMBAT CLIMATE CHANGE as less landfills mean less greenhouse gases into the atmosphere.

REDUCE LITTER & POLLUTION especially since all plastics end up in the ocean.

ENSURE LESS PRESSURE on our limited landfills this ensures we can use our existing landfills for longer.

IMPROVE OUR WASTE PRACTICES IN CITIES (needed due to urban migration), for better town planning & management.

PROVIDE EMPLOYMENT to a large number of unskilled labour in recovery, sorting & collecting.

RECYCLING CLEAN FOOD & GARDEN WASTE makes compost to feed our soils.

SAVE WASTE MANAGEMENT COSTS as our landfill disposal costs rise exponentially.

TEACH SUSTAINABILITY THINKING among our staff, learners & within our communities, so we all start seeing the cause & effect of our individual actions.

HOW TO START RECYCLING?

1. SEPARATE Recycling starts with waste separation at source. Depending on you, you could separate **RECYCLABLES, FOOD WASTE & LANDFILL (NON-RECYCLABLES)** - or, in addition, keep recyclables separately too; those are: **PAPER, CARDBOARD, TINS & CANS, GLASS, PLASTIC BOTTLES & SOME CONTAINERS, TETRAPAK CARTONS.**

2. WHICH BINS? To help waste separation, you'll need recycling bins. Speak to Postwink for options that match your design preference & budget.

3. LINERS You will need to switch your bags to **CLEAR BAGS** for your dry recyclables, and certified **COMPOSTABLE** bags for food waste.

5. WHICH COMPOSTING SOLUTION? From Bokashi, worm farms, garden composters or larger in-vessel solutions, there are multiple ways to compost your food scraps without having large grounds or a farm!

4. WHICH COLLECTORS? Once you have your recyclables separate from your food waste and your non-recyclables - find a suitable recycling collector near you. You can also drop-off at your nearest drop-off. For collector & drop-off informationave go to: <http://postwink.co.za/recycling-collectors/>

6. EDUCATE Training & educating your stakeholders is crucial - did you know most people want to do the right thing, if you make it easy for them - and educate them on **WHY TO DO IT** and **HOW TO DO IT**.

7. REVIEW & IMPROVE Recycling is like any project: it requires planning, execution and followed by plenty of measuring, reviewing and implementing improvements!

For bins, liners, composting options and training solutions, email us for a quote. Or download our catalogue on www.postwink.co.za
